JAZZ PHOTOS - DIGITAL CATALOGUE All the original images listed here were captured since 2010 in colour JPG on a Pentax DSLR, mostly at 3200 or 1600 ISO. Please be aware that many of those shown in Jazzword are minimally processed for online display and have likely been made in poorly lit situations. If you have special requirements for content, sizing, resolution or colour for example, or licensing inquiries, please contact jazzword@hotmail.ca . More images are in the archive than are uploaded to Jazzword; all inquiries welcome. Licensing inquiries may also be directed to Cynthia Sesso at www.ctsimages.com in Los Angeles.

Digital images on Jazzword are reproduced online at 96-300 dpi. All digital originals are shot in colour, but may have been converted to black and white for better Web display. Other processing is minimal. The embedded File Info in any digipix provides relevant details, along with licensing and copyright information. All early photos (1980 through 2009) were shot in BW film and are listed in the separate *Jazzword BW Catalogue*.

All images listed and on this website are © Susan O'Connor www.jazzword.com.
